- 1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
- 2. Claims 1-3 and 18-19 are rejected under 35 U.S.C. § 102(b) as being anticipated by Hyatt.

As per claims 1-3 and 18-19, Hyatt discloses in figure 1 and column 6 the limitations set forth in these claims.

3. Claims 1-3 and 18-19 are rejected under 35 U.S.C. § 103 as being unpatentable over Daggett in view of Hyatt.

As per claims 1-3 and 18-19, Daggett discloses a digital position and velocity feedback system for a multi-axis machine which only differs from these claims by not using a single active processor to the control the multi-axis machine. Hyatt discloses a computer system architecture wherein a microcomputer, single active processor, is used for direct interaction with a machine to enhance communication and to reduce special purpose interface circuitry.

It would have been obvious to one of ordinary skill in the control art to replace the multi-computational source as disclosed by Daggett with the single active processor as disclosed by Hyatt for the purpose of having direct interaction with a machine which enhances communication and reduces special purpose interface circuitry.

4. Applicant's arguments filed 8-9-93 have been fully considered but they are not deemed to be persuasive.

Applicant argues that Hyatt discloses more than one active

Serial No. 08/193634 Art Unit 2306

system. However, the real issue is whether Hyatt discloses more than one active processor. Applicant points to the data processor 12 of figure 1 and the circuitry of figure 3 of Hyatt, and contends that Hyatt discloses more than one active processor. However, there is no active processor in figure 3, thus, the only active processor in Hyatt's system is data processor 12.

With respect to claims 18 and 19, a typographical error was made. Claims 18 and 19 should of been rejected with claims 1-3 in view of Hyatt and Daggett in view of Hyatt. In page 4 of applicant response, applicant recognizes the error and addresses the rejection as if it was constructively made.

5. This is a continuation of applicant's earlier application S.N. 07/655,857. All claims are drawn to the same invention claimed in the earlier application and could have been finally rejected on the grounds or art of record in the next Office action if they had been entered in the earlier application. Accordingly, THIS ACTION IS MADE FINAL even though it is a first action in this case. See M.P.E.P. § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 C.F.R. § 1.136(a).

A SHORTENED STATUTORY PERIOD FOR RESPONSE TO THIS FINAL ACTION IS SET TO EXPIRE THREE MONTHS FROM THE DATE OF THIS ACTION. IN THE EVENT A FIRST RESPONSE IS FILED WITHIN TWO MONTHS OF THE MAILING DATE OF THIS FINAL ACTION AND THE ADVISORY ACTION IS NOT MAILED UNTIL AFTER THE END OF THE THREE-MONTH SHORTENED STATUTORY PERIOD, THEN THE SHORTENED STATUTORY PERIOD WILL EXPIRE ON THE DATE THE ADVISORY ACTION IS MAILED, AND ANY EXTENSION FEE PURSUANT TO 37 C.F.R. § 1.136(a) WILL BE CALCULATED FROM THE MAILING DATE OF THE ADVISORY ACTION. IN NO EVENT WILL THE STATUTORY PERIOD FOR RESPONSE EXPIRE LATER THAN SIX MONTHS FROM THE DATE OF THIS FINAL
